Needled hair pad and cotton top

6½"/16.5cm deep

A masterpiece of longevity and comfort, our N°4 was created following demand from some of the world's best hotels. Taking over 50 hours of considered handcraft, each bed is created to your specifications in our bedworks in Wales. There's no such thing as a basic model at Savoir. We're setting new standards for luxury sleep.

The luxurious HC topper is specifically designed so you awake feeling relaxed and renewed. The HC topper features an abundance of hand-teased loose hair, sandwiched between two layers of plush cotton.

The N°4's deep mattress is filled with superior quality wool, a hair pad and needled cotton, layered above and below tall, nested pocket springs. The result is perfect support, and a rejuvenating night's sleep.

The box spring provides the perfect foundation for your N°4 bed, supporting your weight and ensuring the mattress has give and independent movement. A bed of both luxury and longevity.
