1"/2cm cotton roll edge

Tampico topped with a layer of GOTS certified organic cotton and flax

6½"/16.5cm

All the ingredients that go into handcrafting the N°4v box spring, mattress and topper are free from both animal products and synthetics. Drawn from the wild and lovingly refined into sumptuous materials, they'll imbue your bed with comfort.

The CFv topper features a sumptuous core of organic GOTS certified GM free cotton and flax, with an outer layer of super-soft bamboo and viscose.

The tall, nested pocket springs within the N°4v mattress are wrapped in a layer of natural Tampico fibres. Organic cotton and flax, bamboo and viscose are then layered on top to create a deep mattress.

The large hour-glass springs within the N°4v box spring are topped with both Tampico fibres and organic cotton and flax to create a supportive foundation for your mattress.

The Vegan Society certified N°4v is created at Savoir Wales Bedworks and, like all our beds, each one is fashioned on a trestle table by one master craftsman whose hands take it from inception to completion.
