

SAVOIR

The N°4

The New Standard

'Originally created for top hotels, the Savoir N°4 bed promises a five-star experience in your own home.'

A masterpiece of longevity and comfort, our N°4 was created following demand from some of the world's best hotels. Each bed is handcrafted to your specifications in our bedworks in Wales. There's no such thing as a basic model at Savoir. It's simply a case of how you take your luxury.

This luxurious topper is designed to relax and renew. Providing an added layer of indulgence to your bed, it is comprised of a core of soft loose cotton wrapped in swathes of lambs wool.

This deep mattress is filled with curled horsetail, lambs wool and needled cotton, layered above and below tall nested pocket springs. The result is perfect support, and a rejuvenating night's sleep.

The box spring provides the foundation for your bed, supporting your weight and ensuring the mattress has give and independent movement.

When every last detail is perfected, the craftsman signs their name on the label, the ultimate mark of pride in ones work.
