# The N°1

One Dream. One Focus. The One.

The pinnacle of over a century of bed-making expertise, requiring at least 120 hours of handcrafting, the N°1 is the ultimate in luxury.

Plump with the world's finest materials, our N°1 Topper is the ultimate comfort layer, giving you the feeling of floating, weightlessness. It features generous layers of horse tail, wool and pure cashmere, encased in a delicate stretch cotton.

Featuring taller springs and lavish layers of premium natural fillings, this is our deepest mattress yet. It combines perfect zoned support with the ultimate softness, and is completed tailored to you and your body.

Our N°1 box spring provides a foundation of pure comfort, crafted from the finest materials; horse tail, hourglass springs and beech. The box spring is essential for supporting your mattress, ensuring give and independent movement.

Every element of Savoir N°1 bed is a masterpiece, constructed and perfected by a single craftsman in our London bedworks. When every detail is complete they sign the label, as an artist signs their work.
