N°1

The One

‘If every Savoir creation is a work of art, our N°1 bed is nothing short of a masterpiece.’

The culmination of over a century of bed-making expertise, requiring at least 120 hours of handcrafting, the N°1 is the ultimate in luxury.

Plump with the world’s finest materials, our HCa Topper is the ultimate comfort layer for your N°1 bed, giving you the feeling of floating, weightless. The N°1 mattress topper features lavish layers of horse tail, sheep’s wool and pure cashmere encased in a delicate stretch cotton. If you wish, you can also choose to add Mongolian yak hair, to further elevate this topper’s sumptuous feel.

Layer upon layer of the very finest natural materials ensure you awaken from the N°1 mattress fully renewed. Lavish quantities of hand laid horse tail, cotton and wool encase tall contour-hugging pocket springs. The result is, we believe, the world’s very best handcrafted mattress, completely tailored to you.

The N°1 box spring provides a foundation of pure comfort, crafted from the finest materials; horse tail, hourglass springs and beech. The box spring is essential for supporting the bed’s mattress, ensuring give and independent movement.

Every element of the N°1 is a masterpiece, constructed and perfected by a single craftsperson in our London bedworks. When every detail is complete, they sign the label, as an artist signs their work.

HCA TOPPER

Mountains of hand-teased, curled horse tail, in two layers for optimal performance, with wool divide

Luxurious outer layer of pure cashmere

Natural case of high-tech, 100% cotton stretch fabric and Trellis Ticking

MATTRESS
